Git & GitHub

ABOUT ME

Engineering student and aspiring backend developer with experience in Django and Next.js. Built real projects available on GitHub and have a strong foundation in databases, programming fundamentals, and version control. Actively looking for an internship or entry-level opportunity to grow in backend development.

EXPERIENCE

Self-Directed | GitHub Projects

- Built and maintained web applications using Django and Next.js
- Implemented backend logic and application flow in Python
- Structured projects using standard framework conventions and modular design
- Integrated Prisma ORM for database interaction in a full-stack project
- Practiced version control using Git & GitHub across multiple repositories
- Worked with databases through academic DBMS laboratory projects
- Debugged issues, refactored code, and improved project structure during development

EDUCATION

IOE Paschimanchal Campus

BE Electronics Communication and Information Engineering (8th semester)

2022 - running
